### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The appeal brief received 7 December 2006 has been made of record. Claims 1-7, 9 and 11-15 are pending.

Upon further consideration the finality of the previous office action is withdrawn and prosecution on the merits is hereby reopened.

The rejections under 35 USC 112 and 35 USC 103 contained in the previous office action are withdrawn.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-7, 9 and 11-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Botros.

Botros discloses grafted polyolefin polymers suitable for admixture with ungrafted polypropylene and copolymers of propylene and minor amounts of ethylene (column 6, lines 9-12). The grafted products are taught as functioning as coupling agents when mixed with polypropylene filled with wood and flour (column 6, lines 47-52). These filler materials are seen as meeting the instant limitations to natural fiber. The molecular weight distribution of the grafted product is specified as less than 7 (claim 1) and the amount of grafted maleic anhydride is specified in claim 5.
